DETAILED ACTION

Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-12, drawn to treating composition, classified in class 510, subclass 109,275, and 276.
 - II. Claims 13-26, drawn to method for treating shoes, classified in class 134, subclass42.

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the process for treating shoes can be practiced with another materially different product (e.g. cleaning or conditioning composition).

- 2. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II, restriction for examination purposes as indicated is proper.
- 3. A telephone call was made to Mr. Jeffery V. Bamber on March 14, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1751

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

- 4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
- 5 Applicant's election without traverse of group (I) claims 1-12 in Paper No. 7 is acknowledged.
- 6 Claims 13-26 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention. Pending claims are 1-12.

Claim Rejections - 35 USC § 103

- 7 The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 1-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ishikawa et al. (US' 5,306,435).

Ishikawa (US' 435) teaches shoes treating composition (see col. 12, line 36) comprising polymeric soil release agent such as carboxymethylcellulose (see col. 4, line 48), spreading agent

Art Unit: 1751

Page 4

such as nonionic surfactants (see col. 4, lines 43-46), solubilizing and drying agent such as ethanol (see col. 8, lines 36-37) and microbicide (see col. 8, line 3).

The instant claims differ from the reference by reciting the molecular weight of carboxymethylcellulose (polysaccharide) in the treating composition.

However, it would have been obvious to one having ordinary skill in the art at the time the invention was made to make such a composition because the reference teaches species of carboxymethylcellulose polymer of the claimed invention and would be expected to have similar physical properties, and, thus a person of ordinary skill in the art would expect such a composition to have similar treating properties to those claimed, from structurally similar polymers in the absence of contrary.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eisa B Elhilo whose telephone number is (703) 305-0217. The examiner can normally be reached on M - F (7:30-5:00) with alternate Friday off.
